

# VENTILATED ANTI-FATIGUE TECHNOLOGY

Top lining is a porous  
mesh with vertical loft

Air Flow Reduces  
Unnecessary Perspiration

## STEP INTO THE FUTURE

### VENTILATION INNOVATION, COMFORT EVOLUTION.

After 15 years, PRO is reimagining comfort with our iconic Ventilated Anti-Fatigue technology. Enhanced breathability and air flow reduce perspiration, keep feet dry, and ensure stable body temperature. We maintain excellent shock absorption with a top lining featuring a porous mesh with vertical loft for ideal ventilation and cushioning. Welcome to the future of comfort and performance.
